### **DETAILED ACTION**

#### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(c), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(c) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 31 October 2008 has been entered.
2. Claim 1 has been presented for examination.
3. Claims 2-21 have been cancelled as per Applicant's amendment.

#### ***Response to Arguments***

4. Applicant's arguments, see page 5 and 8-9, filed 31 October 2008, with respect to the prior art rejections have been fully considered and are persuasive. The prior art rejection of claim 1 has been withdrawn.

#### ***Allowable Subject Matter***

5. Claim 1 is allowed.
6. The following is an examiner's statement of reasons for allowance:

As noted above the Examiner agrees with the Applicant's arguments that the prior art does not teach that each processor has program block assigning means for assigning a plurality of mutually concurrently executable program blocks based on the detected connection state detected by said processor detecting means. The Examiner was also unable to find a teaching or suggestion that would render the limitation obvious. Since the prior art does not disclose the

limitation, nor anything that would render said limitation obvious, claim 1 is novel and not obvious and therefore allowable.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christian LaForgia whose telephone number is (571)272-3792. The examiner can normally be reached on Monday thru Thursday 7-5.

9. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kambiz Zand can be reached on (571) 272-3811. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

10. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
